NON-WALK-IN RESCUE

SPECIFICATIONS

The E-ONE Non Walk-In Rescue allows first responders to arrive on the scene prepared. Whether responding to a natural disaster or homeland security threat, this Non Walk-In Rescue stores everything from generators to scene lighting and can be outfitted with the latest communications technology. The E-ONE Non Walk-In ensures all necessary gear is stored neatly with optional rooftop compartments, under-body compartments and a recessed pan.

E-ONE engineers custom extruded aluminum and stainless steel products that meet or exceed NFPA standards to protect individuals risking their lives to serve those in need. And by offering our Non Walk-In on one of three of the industry's strongest custom chassis, E-ONE meets first responders' critical needs without sacrificing safety or quality. Respond with more than a tool box on wheels - the E-ONE Non Walk-In Rescue.

OUR VEHICLES CONNECT AND PROTECT
PEOPLE AROUND THE WORLD EVERY DAY.
